

## Technical Data Sheet

### Harvest Prod/Mod Front Latch Kit

94-58421

Replacement Parts for Harvest Models built from 1988 to October 1992. For stoves built after this date (Harvest Mod A) use front latch kit number 94-58421A.

**Date:** 11/1/2012

**Page:** 1 of 1

**INCLUDED IN KIT:**

2421-218: Harvest Front Latch (Cast Iron)  
4100-0300: Shoulder Bolt. 5/16"D x 3/8" Socket

**TOOLS REQUIRED:**

5/32" Allen Wrench

**BEFORE YOU BEGIN:** Work on a cool stove.

**PROCEDURE:**

1. Using the 5/32" allen wrench, turn out the shoulder bolt in the original latch. Remove and discard these pieces.
2. Slide the new shoulder bolt as far as it will go through the new latch – the threads will come out through the bottom of the latch.
3. Turn the threads of the shoulder bolt into the threads in the face of the front door and secure it by tightening it with the allen wrench.
