

## Technical Data Sheet

### #95-76315 Sterling 8521 & 8531 Baffle Clips

**Date:** 11/6/2012

**Page:** 1 of 1

**KIT CONTENTS:**

2 – 5501-585 Baffles Clips

**TOOLS REQUIRED:**

Phillips screwdriver

**BEFORE YOU BEGIN:**

**Make sure the stove is off and cool to the touch before attempting to install the baffle clips.**

**PROCEDURE:**

- 1) Loosen the screw and open the front door of the stove.
- 2) The baffle clips are install on each end of the baffle. Simply angle the top of the clip toward the back of the stove, set the base of the clip on the edge of the baffle, and bring the top forward until it snaps in place. Repeat this procedure for both sides.
- 3) Close and secure the front door.
