

Hearthstone Soapstone Rocks

Kit Number 99-99130

KIT CONTENTS:

(6) Soapstone Cubes

TOOLS REQUIRED:

Freezer

BEFORE YOU BEGIN:

ONLY WORK ON A WARM BEVERAGE! The Hearthstone Soapstone Rocks (also known as whiskey stones) are individually hand crafted from the same soapstone we use in our stoves. Soapstone will store chill in much the same manner it stores heat. In fact, a given volume of soapstone actually has greater cooling capacity than does a comparable volume of ice and has the added bonus of not watering down your drink in the process.

PROCEDURE:

1. Remove stones from packaging
2. Wash with dish soap and water
3. Rinse well
4. Place stones in freezer and allow to cool for at least 2 hours
5. Remove from freezer and carefully place in cup or glass
6. Add beverage of choice
7. Enjoy!

WARNING!

Keep out of reach of children. Soapstone Rocks can represent a choking hazard. Use responsibly.
