BAFFLE REPLACEMENT KIT

KIT 90-76130

Model Application: MANSFIELD 8013

INCLUDED IN KIT:

(2) 3120-012 Baffle Board

TOOLS REQUIRED:

None

Before You Begin: Work on a cool stove.

- 1) To replace the baffles, begin by opening the door and locating the sheet metal baffle retainer at the front edge of the baffle.
- 2) On the right-hand side of the baffle retainer, lift the baffle retainer up and pull it off the T-shaped side support.
- 3) Slide the baffle retainer to the right side of the stove to disengage the retention slot from the left-hand side baffle support.
- 4) Remove the baffles from the stove.
- 5) Reinstall the new baffles in the same orientation as removed by reversing the above steps. Use the picture below as a reference.
