

FEDERAL TAX CREDIT QUALIFICATION CERTIFICATION OF EFFICIENCY

The following Hearthstone models of Biomass-burning appliances are “Qualified Energy Property” (Wood or Pellet Stoves or Insert) covered under the Wood and Pellet Heater Investment Tax Credit (ITC), and therefore meet the federal $\geq 75\%$ HHV Efficiency tax credit requirements per section 25 (C).

The data for this certification came from testing to CSA B415.1 method. Testing was performed on a

representative sample by a third party EPA accredited laboratory.

The purchase and all installation costs of this stove qualify for a federal tax credit, valid if installed between January 1, 2023 and December 31, 2032.

Consult with your tax advisor to claim the federal tax credit.

CERTIFICATION STATEMENT

Under penalties of perjury, we declare that we have examined this certification statement, and to the best of our knowledge and belief, the facts are true and complete.
